

OPTIMIST PANEL

Successful Governance for Open-Source Ecosystems

Key Challenge: Open vs. Closed Source

Governance: Ensures finding the right balance and sustaining the ecosystem

Not guaranteed and maybe not needed!

Panelists and Moderator

Aydin Aysu

Keysight Technologies

Peter Schwabe
Scientific Director
Max Planck Institute

Pick A Side: Openness vs. Commercial IP/Trade Secrets

- **Do you prefer openness or trade secrets as the primary mode for credible IST?**

Pick A Side: Funding

- **Do you prefer public grants or memberships fees as the primary funding model?**

Pick A Side: Academia vs. Industry Priorities

- **Should ecosystem be led by scientific novelty or customer requirements?**

Pick A Side: Licensing

- **Should contributions to OPTIMIST be open-by-default or also include restrictive licensing (e.g. BSL)?**

Questions

- **What is the single most critical challenge you are trying to address in your work today?**

Questions

- **Any questions that we should have asked?**
